

C. N. R. IN CONFERENCE WITH COUNCIL

RICH PUBLICITY LITERATURE SELECTED BY BOARD OF TRADE

85,000 Envelopes Should Reach Some People--Shows Views of Factories--Cluster Lights Near Realization--Illumination Scheme, Known Month Ago, Is Out.

Questions of quantity of advertising literature and some of the minor details of the folder prepared by the Redcliff Board of Trade, chiefly through the efforts of Secretary Bat, occupied the attentions of that body in its regular monthly meeting on Monday night and the results of the general get-together session promise a publicity pamphlet and envelopes unique in design and very attractive.

The final decision of the Board will result in the filing of an order for 25,000 No. 8 envelopes, 50,000 No. 10 and 10,000 No. 12 envelopes, and 4,000 of the accepted design of folders.

The envelopes will probably be the greatest agency for advertising in a superficial way and followed up by the folder combine a great history of mailing publicity.

The envelope, at a glance, shows an aggregation of factories now situated in Redcliff or about to start construction that conveys an unavoidable impression of solidity. Out of six different factories worked into a wash drawing to be reduced in size in the engraving will show one of the brick plants, The Dominion Glass Works, The Redcliff Motor Works, Roller Mill, Knechtel Furniture Factory and the Boat and Shoe factory. This will be on the front of the envelope with a little oval space for the address and a coupon on top for the address's name, etc.

The envelopes will be in but one color--black--and will, it is thought, be richer and more stable in appearance as a result. The largest size of envelope is designed to take the folder. An order of 6,000 of these envelopes will cost \$52.50. The business envelope, No. 10, will cost \$137 for an order of 25,000. The smaller sized envelope is designed for those who would use a publicity envelope in their personal correspondence.

The sixteen-page folder is in a two-color cover design on a stiff, light-weight card. The Cost of Arms of Alberta is on a narrow fold-back edge of one cover. On the front cover will be exact reproductions of the Roller Mill and Gas Plant and a drawing of a glass well in the center.

With a view toward setting forth the many-sided phases of Redcliff's social, industrial and commercial life, the contents will show views of all of the industries with brief descriptions, a cut of the proposed church edifice for the United Protestant and churches, pictures of the scenic points along the cliffs of the river adjoining Redcliff, and concentrated views of some of Redcliff's principal buildings.

The cluster lights planned for Broadway will be worked into the photo view. Mr. Bat says that every local Broadway owner to a man is agreeable to the proposed

lighting plan and that all that remains to be done is to communicate with owners outside of the city for their support before the Board files an order with the Ornamental Iron Co. for the standards according to the blue-print design, which provides four suspended lights in a square, surmounted by one light in the center on a standard of its own. The lights will be ornaments to the streets by day as well as at night and will be excelled by no lighting system in Western Canada, as far as it goes. As planned now for installing the lights, the property owners will assume the initial expense and the city will maintain the lights.

Other portions of the folder will be devoted to an enumeration of the advantages Redcliff offers to the manufacturer, the professional man and the wage-worker. A panoramic view of Redcliff will also be shown.

To avoid conflicting with the regular council date the meeting night for the Board of Trade was changed from the first Monday to the first Tuesday of each month. Mr. A. J. Nicholson, speaking in behalf of Mr. J. P. Landis, stated that it is his belief that Council Hall can be secured for the meeting on the desired evening, as the first Tuesday in the month happens to be an open lodge date.

HAT J. P. HAS POOR CASE ON SULLIVAN

The trial of Chief of Police Sullivan in Medicine Hat looks like a fiasco in which personal prejudice and blood clannishness play the most prominent part. Recognizing an irregularity in procedure, which is not a culpable offense under the premises of this case, the first looks like a fiasco.

Mr. Samuel Farrar, who is persistently in the limelight, was placed under arrest on a certain charge and being late at night, Chief Sullivan gained the signature of Magistrate Henderson on the warrant, but the papers of complaint were signed in Mr. Henderson's name by Sullivan himself.

Mr. Henderson told the Review this morning that the chief had his permission to do so in cases of emergency, under which this seems to come. Mr. Henderson says that though it is not legally sanctioned, it is an established precedent.

Counsel Davidson, of Davidson & O'Neil, considers that there is no case against Sullivan and that it is purely a technicality. Sullivan requested trial in September to get the case out of Magistrate Kealy's hands.

Magistrate Kealy, it is understood has no authority to keep Sullivan's warrant for Farrar.

Harness Man Coming At Once

In a communication from Mr. J. Nicholson, of Earl Grey, Sask., the information contained that Mr. Nicholson will be in Redcliff in three or four days, with a consignment of goods for his harness store on Fifth street and personal belongings.

Employers of Labor should be told that the law is in force, when it will be put on a systematic basis with the work in charge of a responsible salaried sanitary inspector.

Tentative Understanding Is Reached-- Right-of-Way Men Ask Exemption-- Twenty Years Granted--Route Satisfactory--Money Market a Little Tight

The third barrel in Redcliff's strenuous council week was exploded last night when Messrs. R. M. Mitchell and G. Varcoe, right-of-way men of the C. N. R., went into second session with the city council for two hours and a half.

The C. N. R. requests were largely on matters of water supply, street closures and taxation exemption. The latter was granted for the period of 20 years. The evening's business was in the nature of a one-sided promise and does not constitute a written agreement, but is an assurance of certain things which the officials can put up for final approval.

The mayor's signature is not on

the adopted minutes, but the council as a body voted unanimously, instructing the mayor and their body to approve of an agreement to pass on the route of the C. N. R. and its attendant street and lane closures, exemption from taxation for 20 years with the exception of school taxes, and to supply water at a given rate and lay conduits across the closed streets, all of which provisions are subject to the approval of the provincial authorities. The town pledges itself to obtain legislation to carry out this agreement.

The route of the railroad is exactly as previously announced. It is understood that an easement in the immediate money stringency will see work started at once on construction through Redcliff.

DOUBLE-BARRELLED COUNCIL WEEK GETS \$15,000 AND RIGID SANITATION

Money Advance Confirmed and City Machinery Is Lubricated--City Cleanup in Sight--Sanitary Problem Peered at from Every Angle and Ex- acting Laws Will Result.

After discussing sanitary matters pro and con for nearly two hours on Tuesday night the city council, presided over by Deputy-Mayor Lavell, went into a private sitting on one of the city's financial matters and was in a session of some length. Later *The Review* found out through its own channels that the \$15,000 supposed to be in deposit to the city's credit is such in fact and that current work can be handled at once. The city drew a check of \$6,000 yesterday morning for meeting the water truck and the standing has already been hauled to the grounds.

Two meetings of the council consecutively appear to mean clear cut action on sanitary conditions at once. On Tuesday night tenders were read from several parties in response to the sewerage bid advertised in last week's Review.

These tenders were followed by a digesting of the compensations stipulated and were used by a notice of the council in determining the cheapest and most efficient solution of the problem.

Councillors Higgs and Hodge and City Engineer Askwild, as a committee, made an inspection trip of the present dumping grounds and their report will be largely incorporated in a sanitary by-law.

The Sanitary Committee of the council spent the most of Wednesday afternoon in session on their findings, so as to be able to file their report with the whole council on that evening.

The immediate results of the council's work is the hiring of teams temporarily to clean up the city and the law is in force, when it will be put on a systematic basis with the work in charge of a responsible salaried sanitary inspector.

whose duties will be solely the upkeep of the town in that department.

Discussion of the gauge for levying charges on the daily collection brought out the argument that a person running a cesspool should not be obliged to pay in to the general charges for that branch of the city work when they derive no benefit and conversely if the city did not change for each removal of the contents of a cesspool the owner would take advantage by running quantities of wash water into the

ALBERTA BOOK SUPPLY TAKES SCHOOL BONDS

Deal Closed Last Night-- Money Available for New Building at Once--Work Stopped Pending Sale.

A satisfactory agreement was arrived at last night between the school board and H. J. McCarty, representative of the Alberta School Supply Co., whereby the entire block of school bonds carrying six per cent interest and enabling the immediate construction of the addition to the school house costing \$15,000 was sold. Tenders are advertised in this paper and work will commence soon. Mr. McCarty's company handles the business of a Toledo bonding house, and in conjunction with the purchase of the bonds made an acceptable offer for cheap equipment and supplies for the new building.

In board meeting Tuesday evening the school trustees decided that work on the \$17,000 addition to the present public school be deferred until at least a sale is pending for the school bonds. Accordingly the trustees are at work will be taken for the present and the bids for concrete work will be held until the

ALMA STEEL PROMOTER ON GROUND NEXT MONTH

Britain, of Sheffield, Eng., Writes Letter in Outline of Plans and Says He Will Return to England to Order Plant After August Visit Here.

The following is an exact transcription of a letter received by the Redcliff Realty Co. from Mr. Britain, who is one of the promoters of the branch of the Alma Steel Works of Sheffield, Eng., to be located in Redcliff. The letter was written at Sheffield under date of June 19, 1913.

"Although I never received the cable of Mayor Maule, I have received detailed news from Mr. Plevins and my lawyer, Mr. Tench, and am well satisfied with the concessions granted."

"As regards the steel tool plant, now that I know exactly where we are at, I can get ahead with my preliminary arrangements and am taking the matter up energetically

this week. It will, I think, be necessary for me to come over for a few weeks at the end of August to rough matters out and I hope Mr. Plevins will come over here later to help me purchase the plant and make desired arrangements."

"I anticipate putting in quite a part of next year, with you in Redcliff so as to get things into running order."

"As I pointed out to you when out, the difficulties of manufacturing the high-grade steel in which we specialize right from the crude Swedish and Russian iron would be very great and as there is no duty on the high-grade product, the inducements would be small, but we hope to do most of the finishing processes there and also to manufacture a variety of tools for mines, railways, engineering shops, including picks, hammers, crowbars, forgings, etc."

"Finance is also very tight here and at the present we can use all the money we can lay our hands on. I am sorry to say that Canadian issues are particularly shy and there is a strong feeling that the land business has been overdone and that a day of reckoning will come. I am preaching the doctrine of land with development as the only safe way."

(Signed) BERNARD BRITAIN.

FIREMEN'S BALL IS SPLENDID SUCCESS

The city firemen, aided by the Redcliff Band, put on a dance Wednesday night which was attended by about forty couples before the evening was over. The success of the dance was due in considerable measure to the music furnished by the band, which could be heard throughout the business district. The dance was followed by a supper prepared and served by Mr. Beatty, of the Club Lunch. The Home Furnishings Co. generously loaned a piano for the occasion. Mr. Lon Barber furnished the dishes and chairs for the dance and the Crown Lumber Co. gave some materials for the occasion.

The band formed in the south end of the city and paraded down to the hall on north fourth street, rendering lively music on its march and followed by a couple of operatic selections in front of the hall. The finished and eventful work of the organization drew forth praise from all who heard it. Many expressed their belief that the band was not in part professional musicians from Medicine Hat, but nevertheless, it was entirely a local production, and the men scored a hit with all Redcliff. The town council was present at the dance in a body and stayed some little time, although they were a little haphazard about staying to dance.

A few days and will exert every effort toward negotiating a sale of the bonds.

A letter from the Redcliff Realty Co. was read in which the company offered to the school board the south one-half of Block 28, in the Industrial Subdivision, conditional on a waiver of the usual three year school bond provisions carried in the registering of subdivisions. A committee will look into the matter and go over the ground offered.

Misses Georgia Gordon and Annie Wagstaff were re-appointed as teachers, making up the full regular staff of the same personnel as that of the season just closed.

PLAY BALL!

"Baseball game to-night at 6:30 sharp, on Main Street diamond, when Redcliff plays the Peewees of Medicine Hat." To-morrow afternoon the team will go up to Brooks again to meet the team of that town. The team is making arrangements on the basis that a large following of fans will go along.

CLOSE GAME WITH THE REAL ESTATES

Ladies' Day Monday and the Fair Fans are Captivated by Cohen's Playing.

Redcliff turned the tables on the real estate men in a closely fought baseball game Monday night by a score of 23 to 13 and then the estates ebbed. Not until the last man was down at the end of the first inning was the truth clear.

The only explanation that the real estate men can make for their reversal in form is the example set by Archibald Cohen, leader of the outfield orchestra, who didn't tune up until the mosquitoes quit eating him, and before going into the field he insisted that he must have a smudge, and that all flies tagged into his pasture should be heaved so as to drop beside that smudge.

Center-fielder Alec Slaney and Second-Baseman Rosenthal for the estates are both on half pay, on account of splitting the middle sack and letting overhead go to Dunmore. (We mean that for the city!) and not a player by that name.)

Peacecock gallantly condescended to grab Dix Ruxton while elephant for his team. This probably crippled the estates more than anything else, as we maintained our usual fielding average, the same being perfect, as no balls came out that way. Nobody started in this game, although lots of us stand when Cohen broke all precedents by knocking out a single.

Presbyterian Church.

The Rev. G. Lawson Gordon and Mrs. Gordon returned to town on Saturday from their trip to the Presbyterian Congress and General Assembly, and to various towns in Nova Scotia. Last Sabbath Mr. Gordon spoke of the main facts emphasized by the Congress. Next Sabbath he will report on the main topics presented to the General Assembly, speaking in the forenoon of "Men and Institutions," and in the evening of the "Future of the Churches" and Mission Work.

The services are held in the Church at 11 a. m. and in the Empire Theatre at 7.30 p. m. Also in the Church: Sabbath School at 2.30 and Bible Class at 3.30, Sabbath afternoon; Prayer meeting at 8 o'clock Wednesday evening; Ladies' Aid at 2.30 Thursday afternoon; Choir at 8 o'clock Thursday evening.

Church of England.

Friday, the 18th: Even song and choir practice 8 p. m. in shack back of Chad's.

Sunday next. No early service; no morning service. Sunday school 2.30 in shack back of Chad's; even song 7.30 in Maple Hall.

Holy communion 11 a. m.; even song 3 p. m. The above at Ben Reeves, box Springs.

MACS ARE HAVING A HEAP BIG TIME

Redcliff Scotsmen Write Glasgow is Wet, Also Themselves.

Mr. William S. McLean, who left Redcliff for a visit in Scotland in May in company with Donald MacLachlan has written to Mr. T. C. Hills, of this city, under date of June 24 stating that it is fine and wet over there, overhead, underfoot and inside. He says that in view of the saturated condition of the atmosphere there is little excuse for about being dry and so they're availing themselves of their opportunities. They will sail together on August 15 for Montreal and should be in Redcliff by September 1.

"If the Pines and Mosquitoes bother you in Vash, the ladies and gentlemen, First Street and First Ave. N. Redcliff.

For fire insurance in good strong companies see J. L. Landis & Co.

ENGINEER REPORTS COULEE PLAN GOOD

Dr. Kohler States Lake Scheme Feasible--Hinges On City Money.

Dr. O. H. Kohler, whose project for the construction of a dam in the coulees south of the Butler Mills and beautification of the coulees in that vicinity was made public in The Review a few weeks ago, states that he has had an engineer report on the matter and finds that it is entirely feasible and would result in a chain of lakes as previously outlined in detail.

Nothing further can be done about the matter until the city water supply is increased by the erection of the water tank and also until new mains are laid. Practically all of the contingents therefore hinges on the city's financial condition as regards making the project possible. Dr. Kohler states that he thinks his people, the Brick and Coal Co., would take up a block of city bonds in view of a grant. If the city would agree, they financially able, to start work on the scheme.

PEOPLE'S PULPIT.

Sermon by
**CHARLES T.
RUSSELL**
Pastor Brooklyn
Tabernacle

**LEPROSY OF SIN
NEEDS A SAVIOR**

Every Unrighteousness Is
Sin—Divine Remedy the
Only Cure.

St. Paul, Minn.,—The Pastor Russell spoke at the Auditorium here this afternoon, also at the Shubert Theatre, Minneapolis, in the evening. The announcement of his coming is always sufficient to draw a large audience. He wore a suit of dress, based upon the Saviour's words respecting the ten cleaved shoes, "I have no sandals on my feet; but where are the nine?" Only one man returned to give glory to Christ.

Leopold, said the Pastor, has long been regarded as ineffectual, and therefore was used as an illustration of one, which is also a sermon. Only the Master's word could heal Lepers, so, nothing short of a Divine Word could heal the leprosy of sin. Lepers in olden times were obliged to separate themselves from the clean, and the leprosy of sinners were required to cry, "Unclean! Unclean!" Cut off thus from association with the clean, the leprosy of the poor creature was far from curable. So sinners by Divine grace are cut off from the pure, the holy, the righteous.

FRIDAY, JULY 18, 1913.

WELCOME THE YELLOW RACE?

In three of the principal cities in Canada in the past ten days, in the East, Pacific Coast, and in the center of the great prairie provinces, there have been colorline disturbances or agitation of some sort as regards the admission and privileges of aliens and negroes.

In Montreal, the city that in foreign circles is looked upon as the model and distributor of Canadian sentiment and thought, an anti-alien league was formed numbering in its organization some of the most prominent men in the city and a message of congratulation was wired to Governor H. H. Johnson of California for his stand on the alien land-ownership issue, also a wire to the premier of British Columbia urging him to take a decided position against Chinese and Japanese immigration.

The provincial supreme court at Regina upheld the right of a police magistrate at Moose Jaw who convicted Chinamen of employing white girls in their place of business. The court held good the right of the province of Saskatchewan to legislate against the liberties of Orientals in such matters.

Vancouver's license commission showed its attitude on the color line of the South by depriving a negro of the right to receive service at a public bar. This last case cited is of an entirely different complexion and must be handled by different tactics. But Vancouver, too, is well known to be violently opposed to the Orientals, and it is the question of the welcome of yellow men that is the dominant and present problem.

So in the above three cases we have the sentiment of the people and officials of all Canada, and if it isn't sufficiently comprehensive of Canada's four corners we can take in that scant minority away up in the Canadian Yukon at Dawson. White Horse and the Klondike would rather have a thousand Siwash Indians camping around than a handful of Chinese or Japanese. (However, it must be noted that the natives of the North are an offshoot of the Asiatic stock.)

But Canada does not want the Asiatic. There is no use in equivocating about it. The Dominion sentiment is very apparent.

As long as we are lukewarm toward them they will come and we will patronize them to a certain extent and they will but we can all get along without their business.

It is not doing violence to the principle of universal brotherhood to exclude the Asiatics. If their blood were assimilable and their stock welcome it would be a different matter, but such is unhappily not the case.

An admixture of yellow and white blood creates an offspring that is a disgrace to the Creator and was never intended to be. Therefore if they can not fit in with the home folk of America they should not be admitted.

The great Caucasian melting pot can absorb the lowest class of Italians, Slavonians, Lithuanians and every branch of white stock in time. The individual traits are worked into a composite blend in America where the Celtic, Slavic and Latin bloods co-mingle in a distinctive racial pattern that will hold in its palm the destinies of the American of Tomorrow.

row. The Asiatic does not fit in this body politic.

Furthermore, whether it just happens to be or whether it is due to some influence that clings to the Oriental, their habitations seem to be a peculiar magnet for white girls. The Chinatowns of San Francisco, Salt Lake City, the old district of Seattle and the chop-what joints of every city are to high life like honey to the fly. What is it in their subtle powers or Oriental consciousness that so focuses dissipating tendencies? Maybe they are not responsible and maybe the whites gravitate that way of their own accord.

But the Asiatic upsets economic levels in the progress of wage-worker wherever he goes.

Rev. G. L. Morrill, a well-known and sensational preacher of Minneapolis, characterized California's fight against the Japanese as capable only of diabolical comminations of millions of his Stannis' Majesty, or something to that effect. Rev. Morrill has traveled the world over and it scarcely seems consistent with broadness of travel to contact to say other than that California's fight is justly waged by the home-bodies. The Asiatics can and do live on a few cents a day and must be conceded to be of such intelligence that they can compete with the white worker. They are good artisans and agriculturists, but our own white wage-workers have a right to demand protection so that they can live on a standard higher than competition with an Oriental will permit.

Lumping these social and economic reasons together, all America certainly seems justified in passing the most rigid anti-alien measures.

REDCLIFF STRONG FOR THE HAT

Some of those people in Medicine Hat who are busy minding other people's business because they haven't anything to do themselves and who have been picking some of the bolts out of Redcliff's water tank might take note that their Hatly city is talking of issuing treasury notes to squirm out of their difficulty and that the Imperial City of Destiny, Vancouver, can't get money for city work. Duck out your police department down there before you pump our water tank.

Several commercial men tell us at various points down in the Hat, including their own customers, are most unmercifully hammering Redcliff. Every little knock is a boost, Redcliff has hammers of a different sort pounding away and they are the best kind of knocks in a stranger's ears.

Redcliff likes Medicine Hat. She shows it by the way she has turned out in force at different occasions of interest in the neighboring city. When either one city or the other gets an industry the one that doesn't get it ought to raise her flags full up on the breeze instead of flying them at half mast and whipping saucily up at the top flag.

Both cities will profit by the

growth of the other. And if both cities knocked it would be to the detriment of both, but when one knocks the knocked city derives the benefit. St. Paul and Minneapolis are what they are largely through their proximity one to the other. Medicine Hat's biggest growth has been since Redcliff came onto the map and Medicine Hat has, through no fault of her own, helped a great deal in the growth of Redcliff, so it works both ways.

Both cities are spokes in an endless wheel and this particular wheel, like all others, must have two spokes. It can't run on just one. Two is the minimum. Redcliff is distinctly and prominently on the map to stay.

THIRD STREET

REDCLIFF, Alta.

Brick Go Through Fire Before they Go to You.

They are made from clay and the clay is burned in a heat that averages 2300 degrees Fahrenheit—a heat far greater than any fire they will ever be called upon to pass through in the walls of your house.

This is what makes Brick Fire-proof.

That is what makes Brick Frost-proof.

That is what makes Brick Impenetrable.

Build Your Home of Brick-IT'S ECONOMY

True economy not only takes in the first cost but the cost that is to come. Brick houses of average construction cost but a few dollars more than lumber, or stucco—say \$150 on a \$5,500 house. But when they are erected cost stops. There are no repairs to be figured on. There is no painting to be counted in every 3 or 4 years. There is no depreciation in price—consequently your house will sell for what it cost you, plus the increase of the value of your lot in the meanwhile. There is a reduction in the insurance rate of 50 per cent over concrete or stucco and more than 50 per cent over lumber. There is a reduction in fuel bills because brick keeps out the frost in winter. There is comfort in summer because brick keeps out the heat. And above all you can borrow more money from your bank on a brick house ten years after it is constructed than you can on a lumber or concrete of the same value in the same period of time. When you build, build for true economy.

PRAIRIE GAS

There is a timelier cruiser in town. By the Jim-creeky, now there's one man we've been in need of for a long time! The shovelry between here and Medicine Hat is getting just awful dense.

The council, however, told us ten days ago that there would be some lights installed in town, but that they would expect (enter jocularly) to see us have 100 flaring out right away. Nope. Nothing like that. We've been away from the white lights too long. But we can go slow speed and even put on the double high-pressure valve on gas when we've had something under our lat about a year lights for six weeks that we were used to keep them. Go ahead! We're burning lots of gas and wish we could help in the illumination.

MYSTERY—Who moved the Cow? I-Carroll says he did it and Green says he did it and there's been so much earrolling on the green about it that we're all driven nearly plumb batty.

And still Redcliff metropolitans! That auto-load of quasi street-fakirism that held down the Redcliff Hotel corner on Wednesday night brought back to us vivid recollections of our late-forgotten, open-eyed wonderment at those old Bijou county fairs, when those gasoline torch lights used to throw a halo around the heads of the harkers. And Shorty Barnum "Sucker-a-minute" declaration is upheld even in Redcliff. Hey some of the nubbly Chiffans did tell for those upleers' six-bits-a-throw soft soap!

Sykes May Erect Another Building

Mr. D. H. Sykes is brick-veneer-ing his Third St. building and is planning another two-story building adjoining. It is understood. The south wall, veneering of his building is being deferred pending his decision in the matter.

By-Law No.

BY-LAW TO AUTHORIZE THE ISSUE OF DEBENTURES OF THE TOWN OF REDCLIFF, IN THE PROVINCE OF ALBERTA, TO THE AMOUNT OF TWENTY-ONE THOUSAND DOLLARS (\$21,000.00) FOR THE PURPOSE OF PURCHASING SITES FOR THE LOCATION OF FACTORIES.

WHEREAS it is desirable and expedient to acquire by purchase lands in the vicinity of the Municipality of the Town of Redcliff for industrial purposes;

AND WHEREAS in order thereto it will be necessary to borrow the sum of \$21,000.00 and to issue debentures of the said Town of Redcliff therefor, bearing interest at the rate of 5 per centum per annum payable yearly, which is the amount of the debt intended to be created by this By-Law;

AND WHEREAS the amount of the whole rateable property of the Town of Redcliff, according to the last re-assessment made, is \$1,000,000.00, and no part of either principal or interest is in arrears;

AND WHEREAS it is desirable to make the principal of the said debt under the By-Law repayable by twenty equal consecutive annual instalments of \$1,000.00;

AND WHEREAS it is desirable to pay the interest annually upon all sums of principal money which shall from time to time remain unpaid;

NOW THEREFORE THE MUNICIPAL

COUNCIL OF THE TOWN OF REDCLIFF RESOLVES AS FOLLOWS:

(1) The sum of twenty-one thousand dollars (\$21,000.00) shall be expended by the Town of Redcliff in purchasing twenty-five (25) acres of the Northeast quarter of Section nine (9) in Township thirteen (13) and Range six (6) west of the Fourth Meridian in the Province of Alberta, from the Redcliff Realty Company, for the purpose of raising the said sum, debentures of the said Town of Redcliff to the sum of twenty-one thousand dollars (\$21,000.00) in the whole shall be issued in sums of not less than one hundred dollars (\$100) each, and each of the said Debentures shall be dated on the day of its issue and shall be payable in twenty equal consecutive annual instalments, all sums of purchase money which shall from time to time remain unpaid, at the Royal Bank of Canada in the Town of Redcliff, in the Province of Alberta.

(2) Each of the said Debentures shall be sealed with the Corporate Seal of the Town of Redcliff and shall be signed by the Mayor and Secretary-treasurer of the said town, or by some other person authorized by the Mayor to sign the same.

(3) The said Debentures shall bear interest at the rate of five (5) per centum per annum, payable at the said Bank on the first day of May in each and every year during the currency thereof, and shall have attached thereto coupons for the payment of the said instalment of principal and interest, which coupons shall be signed by the said Mayor and Secretary-Treasurer of the said Town.

(4) During the currency of the said Debentures there shall be paid annually by a special Municipal rate on all the rateable property in the said Municipality in the same manner as the ordinary municipal taxes, the sum set out in the schedule annexed hereto and marked Schedule "A" to meet the annual instalment of principal on the said Debentures and to pay the interest on the principal sum due from time to time.

(5) This By-Law shall take effect on the day of the final passing thereof.

(6) The votes of the burgesses of the said Town shall be taken on this By-Law at the following time and place, that is to say: On Monday, the 28th day of July, A. D. 1913, commencing at the hour 10 o'clock in the forenoon and continuing until the hour of 7 o'clock in the afternoon, of the same day, at the hall in the building across the street from the Redcliff Hotel, in the Town of Redcliff, by the Returning Officer hereinafter named.

(7) William Henderson shall be the Returning Officer;

(8) On the 28th day of July, A. D. 1913, at 10 o'clock in the forenoon the Mayor shall attend at the place used for Council meetings for the purpose of appointing persons to attend at the polling place and to the final summing up of votes by the

Returning Officer on behalf of the persons interested in procuring or opposing this By-Law respectively.

2. The Returning Officer shall attend at the place used for Council meetings at 10 o'clock in the forenoon on Tuesday the 28th day of July, A. D. 1913, to sum up the number of votes given for or against this By-Law.

Done and passed by the Municipal Council of the Town of Redcliff in council assembled.

Read a first time this eleventh day of June, A. D. 1913.

E. C. DANIEL, Mayor.

A. B. CLOW, Secretary-Treasurer.

Read a second time this eleventh day of June, A. D. 1913.

NEW 'SMITH SHOP FOR SECOND STREET

Regina Man To Build Brick
Blacksmithing Shop In
Block 107.

Mr. Lyman A. Thompson, of Regina, has bought property in Block 107 and is at present in the eastern city closing up affairs there preparatory to bringing his family and also his father to Redcliff where they will make their home. Mr. Thompson is going to put up a solid brick building on his property to be used for a blacksmithing and forging shop.

Baptist Church.

Morning Services, Sunday School at 10 o'clock. Public Worship at 11 o'clock. Subject: The Opening Door.

Evening Service at 7:30 o'clock Subject: The Primal Curse. In spite of a pouring rain, a few enthusiastic Sunday School workers met last Sunday morning for the purpose of organizing a Sunday School. The first regular meeting of the School will be held next Sunday morning at 10 o'clock. The prospects for building up a strong organization seem bright.

Last week a small orchestra was organized for the purpose of helping with the opening songs of the evening service. The pastor and people were well pleased with the musical aid which they gave last Sunday evening, and it is hoped that they will feel that they have a regular part in the evening worship.

For good buys on Broadway see the Broadway Specialists, J. L. Landis & Co.

By-Law No. 8.

AN ACT TO PROVIDE FOR THE RAISING OF THE SUM OF ONE HUNDRED THOUSAND DOLLARS (ONE HUNDRED THOUSAND DOLLARS) TO BE EXPENDED IN CONNECTION WITH THE EXTENSION AND ENLARGEMENT OF THE MUNICIPAL SYSTEM OF WATERWORKS.

WHEREAS By-Law No. 8 of the Municipality of the Town of Redcliff in the Province of Saskatchewan was authorized and empowered to borrow on behalf of the Municipality a sum of money not exceeding \$100,000 to be appropriated for the purpose of acquiring waterworks within the Municipality of Redcliff.

AND WHEREAS the Council in pursuance of said by-law did borrow the sum of \$100,000 and did acquire by purchase said waterworks.

AND WHEREAS the Council deems it expedient that the said waterworks should be extended and enlarged.

AND WHEREAS it is estimated that to extend and enlarge the said waterworks there will be required the sum of \$100,000.

AND WHEREAS the municipality is authorized and empowered to borrow the sum of \$100,000 and did acquire by purchase said waterworks.

AND WHEREAS the Council deems it expedient that the said waterworks should be extended and enlarged.

AND WHEREAS it is estimated that to extend and enlarge the said waterworks there will be required the sum of \$100,000.

AND WHEREAS the Council deems it expedient that the said waterworks should be extended and enlarged.

AND WHEREAS it is estimated that to extend and enlarge the said waterworks there will be required the sum of \$100,000.

3. The said debentures shall be signed by the Mayor and Secretary-Treasurer of the Town of Redcliff and the seal of the Corporation of the Town of Redcliff.

4. During the term of said debentures there shall be raised annually by special rate over and above all other rates and taxes on all the rateable property of the Town of Redcliff the sum of \$100,000, being the amount required to pay the interest on the said debentures in each year and to form a sinking fund for the payment of the principal money at the end of the said period of twenty years.

5. That the Secretary-Treasurer of the Town shall pay the said amount to be levied on account of the sinking fund to the Provincial Treasurer annually.

6. This by-law shall take effect and come into force on the first meeting thereof.

7. The votes of the burgesses of the said town shall be taken on this by-law at the following time and place, that is to say: On Monday the fourth day of August, A. D. 1913, commencing at the hour of 10 o'clock in the forenoon and continuing until the hour of 7 o'clock in the afternoon in the same day at the Hall in the building across the street from the Redcliff Hotel, in the Town of Redcliff, by the Returning Officer hereinafter named.

8. On the second day of August, A. D. 1913, at 10 o'clock in the forenoon the Mayor shall advise the burgesses of the Town of Redcliff of the proposed extension and enlargement of the waterworks and shall call a meeting of the Council for the purpose of appointing persons to act as assessors at the polling place and at the final summing up of votes by the Returning Officer on behalf of the persons interested in promoting or opposing this By-law respectively.

9. The Returning Officer shall attend the place used for Council meetings at 10 o'clock in the forenoon on the fifth day of August, A. D. 1913 to sum up the number of votes for or against this By-law.

10. Done and passed by the Municipal Council of the Town of Redcliff in Council assembled.

Read a first time this 12th day of June, A. D. 1913.

R. G. DANIELZ, Mayor.
A. B. CLOW, Secretary-Treasurer.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of the proposed By-Law to provide for the raising of the sum of \$100,000 to be expended in connection with the extension and enlargement of the Municipal system of Waterworks which has been introduced and which

will be finally passed in the event of the voting thereon and that upon Monday, the fifth day of August, A. D. 1913, the voting on the proposed By-Law will be held between the hours of 10 o'clock in the forenoon and 7 o'clock in the afternoon at the same place as the Hall in the building across the street from the Redcliff Hotel, Redcliff.

MOTORS CO. TURNS OUT BIG OMNIBUS

An automobile bus, as requisite and metropolitan in its lines as any in use in the biggest cities, rolled around Redcliff yesterday afternoon on its maiden trip from its cradle at the Redcliff Motor Works—entirely a local product and a revelation even to Redcliffians as to the present possibilities of the auto factory.

The bus, seating fourteen passengers and running as smoothly as a top, showed those who had an opportunity to ride in it that Redcliff and Medicine Hat will soon be brought to each others' doors. This, the first finished product of its kind from the local plant, has been purchased by the Redcliff Realty Co. for eighteen-hour-a-day service between here and the Hat. It is expected to be in operation on a regular schedule by Monday. Another is under way now.

Moonlight Ball At

The School Grounds
A glowing half moon is due to flit plenty of soft light down for the dancers in the open air at next Wednesday's hop staged by the Women's Civic Society on the school grounds. A platform is to be built for the occasion and music will be furnished the entire evening by the Redcliff Band under the leadership of Mr. Chas. Kilpin. The band has astounded all those who heard it at the Fremont hall and an outdoor dancing fete to its strains should be the big public event of the season.

BREVITIES

Mrs. Edward Marfleet, teacher of instrumental music, has opened classes in Redcliff and states she is here to stay. Mrs. Marfleet has had five years of study in Germany and was a pupil under some of the leading instructors in that country.
